PRIVATE PAY SERVICE IS AVAILABLE

- The In-Home Supportive Services Public Authority provides lists of workers to San Francisco residents who pay homecare workers privately.
- We serve elderly and disabled people who require personal assistance or domestic services.
- The workers on each list will be matched to the needs and preferences of the person receiving the care.
- People who are paying privately may receive up to four lists of workers during a three-month period for a fee.
- Fees are based on total monthly income. The Fee Schedule is:
